

ISO 41001 Certificate

Document ID	Version	Owner	Effective Date	Framework	Control Reference	Classification
[DOC-FM-ATT-001]	1.0	[Facilities Management / Integrated Management System Owner]	[YYYY-MM-DD]	ISO 41001:2018 Facility Management — Management Systems	—	[Internal / Public]

Purpose

This Attestation confirms that [Organisation Name] has been certified by an accredited certification body as operating a Facility Management Management System that conforms to the requirements of **ISO 41001:2018 — Facility management — Management systems — Requirements with guidance for use**.

The purpose of this document is to provide a controlled, audit-ready record of the ISO 41001 certificate and the associated certification details, including scope, certification authority, evidence relied upon, validity period, and retention requirements.

This Attestation is intended for use by internal stakeholders, auditors, regulators, customers, suppliers, and other authorised interested parties requiring confirmation of [Organisation Name]'s ISO 41001:2018 certification status.

Scope

This Attestation applies to the certified Facility Management Management System maintained by [Organisation Name] for the facilities, services, locations, and organisational activities defined in the certificate issued by the accredited certification body.

The certification scope is limited to the boundaries formally assessed and certified by the issuing certification body. It does not imply certification of activities, locations, services, subsidiaries, contractors, or outsourced processes outside the certified scope unless explicitly included in the certificate.

Scope Element	Certified Details
Certified Organisation	[Organisation Name]
Certified Management System	Facility Management Management System
Applicable Standard	ISO 41001:2018
Certified Scope Statement	[Exact certificate scope statement]
Certified Sites / Locations	[Certified site addresses or "See certificate annex"]
Included Facility Management Services	[e.g., workplace management, maintenance coordination, space management, service partner oversight, utilities coordination, helpdesk/service request management]
Exclusions / Limitations	[Any exclusions, limitations, or "None stated on certificate"]
Certificate Number	[Certificate Number]
Initial Certification Date	[YYYY-MM-DD]
Current Issue Date	[YYYY-MM-DD]
Expiry Date	[YYYY-MM-DD]
Certification Cycle	[e.g., 3-year certification cycle with annual surveillance audits]

Attestation Statement

[Organisation Name] attests that it holds a valid ISO 41001:2018 certificate issued by [Certification Body Name], an accredited certification body, confirming that the Facility Management Management System within the certified scope has been assessed and found to conform to the requirements of ISO 41001:2018.

Based on the certificate issued by [Certification Body Name], [Organisation Name]’s Facility Management Management System has been independently assessed against ISO 41001:2018 requirements, including the establishment, implementation, maintenance, and continual improvement of a management system for effective and efficient facility management.

The certified Facility Management Management System addresses the ISO 41001:2018 requirements relevant to:

- Understanding the organisational context and the needs and expectations of interested parties for facility management.
- Defining the scope of the Facility Management Management System.
- Leadership commitment, facility management policy, roles, responsibilities, and authorities.
- Planning for risks, opportunities, objectives, and actions necessary to achieve facility management outcomes.
- Support processes including resources, competence, awareness, communication, and documented information.
- Operational planning and control of facility management services within the certified scope.
- Performance evaluation, including monitoring, measurement, analysis, evaluation, internal audit, and management review.
- Continual improvement, including corrective action and improvement of the Facility Management Management System.

This Attestation is based on the current certificate and supporting certification records available as of the Effective Date stated above. Continued certification is subject to ongoing conformance with ISO 41001:2018, completion of required surveillance audits, closure of any certification body findings within required timeframes, and successful recertification before certificate expiry.

This Attestation does not replace the official certificate issued by [Certification Body Name]. In the event of any discrepancy between this Attestation and the official certificate, the official certificate and certification body records take precedence.

Signatory & Authority

This Attestation is authorised by the accountable management representative responsible for maintaining the Facility Management Management System and associated certification records for [Organisation Name].

Role	Name	Authority / Responsibility	Signature	Date
Accountable Executive	[Name]	Executive accountability for the certified Facility Management Management System and organisational commitment to ISO 41001:2018 conformance.	[Signature]	[YYYY-MM-DD]
Management System Owner	[Name]	Operational ownership of ISO 41001:2018 certification records, certificate maintenance, audit coordination, and management system governance.	[Signature]	[YYYY-MM-DD]
Document Owner	[Name]	Preparation, review, version control, and retention of this Attestation and referenced evidence.	[Signature]	[YYYY-MM-DD]

The signatories confirm that, to the best of their knowledge and based on available records:

- The certificate referenced in this Attestation has been issued by the certification body identified herein.
- The certificate applies to the scope stated in the official certificate.

- The certificate has not been knowingly suspended, withdrawn, expired, or materially restricted as of the Effective Date of this Attestation.
- Any material changes affecting the certified scope, facilities, services, organisational structure, or management system will be evaluated for certification impact and communicated to the certification body where required.

Evidence Referenced

The following evidence supports this Attestation and shall be maintained as controlled records.

Evidence ID	Evidence Description	Source / Custodian	Reference / Location	Status
EV-FM-001	Official ISO 41001:2018 certificate issued to [Organisation Name]	[Certification Body Name] / [Document Custodian]	[Repository path / Certificate file name]	[Current / Superseded]
EV-FM-002	Certificate schedule or annex listing certified locations, services, or scope details, where applicable	[Certification Body Name] / [Document Custodian]	[Repository path]	[Current / Not applicable]
EV-FM-003	Accreditation confirmation for [Certification Body Name] issued by [Accreditation Body Name]	[Accreditation Body Name] / [Document Custodian]	[URL / repository path]	[Verified on YYYY-MM-DD]
EV-FM-004	Stage 1 audit report or readiness assessment report	[Certification Body Name] / [Management System Owner]	[Repository path]	[Current certification cycle]
EV-FM-005	Stage 2 certification audit report confirming conformity assessment outcome	[Certification Body Name] / [Management System Owner]	[Repository path]	[Current certification cycle]
EV-FM-006	Surveillance audit report(s) for current certification cycle	[Certification Body Name] / [Management System Owner]	[Repository path]	[Completed / Scheduled]
EV-FM-007	Corrective action plan and closure evidence for any certification body nonconformities	[Management System Owner]	[Repository path / CAPA system reference]	[Closed / In progress / Not applicable]
EV-FM-008	Management review minutes addressing ISO 41001:2018 performance and certification status	[Management System Owner]	[Repository path]	[Current]
EV-FM-009	Internal audit programme and completed internal audit reports for the Facility Management Management System	[Internal Audit / Management System Owner]	[Repository path]	[Current]
EV-FM-010	ISO 41001:2018 scope statement and documented Facility Management Management System information	[Management System Owner]	[Repository path]	[Current]

Evidence shall be retained in a manner that preserves authenticity, integrity, accessibility, and traceability. The official certificate shall be protected from unauthorised modification and shall only be distributed in accordance with the classification stated in this document and any certification body rules governing use of certification marks, logos, and claims.

Frequency

This Attestation shall be reviewed and, where necessary, reissued according to the following schedule.

Trigger / Activity	Minimum Frequency	Responsible Role	Required Action
Routine attestation review	At least annually	Management System Owner	Confirm certificate validity, scope, expiry date, accreditation status, and evidence currency.

Trigger / Activity	Minimum Frequency	Responsible Role	Required Action
Surveillance audit completion	After each surveillance audit	Management System Owner	Update referenced evidence and confirm whether certification remains active.
Recertification	Before certificate expiry and upon new certificate issue	Accountable Executive / Management System Owner	Replace superseded certificate references and reissue this Attestation.
Scope change	As required	Management System Owner	Confirm whether the certification scope has changed and update this Attestation if the official certificate is amended.
Organisational or facility change affecting certification	As required	Accountable Executive / Management System Owner	Assess certification impact and notify the certification body where required.
Certificate suspension, withdrawal, expiry, or restriction	Immediately upon awareness	Accountable Executive / Management System Owner	Withdraw or revise this Attestation and notify affected stakeholders where applicable.
Certification body or accreditation status change	Upon awareness	Management System Owner	Verify continuing validity and update evidence references.

This Attestation remains valid only while the referenced ISO 41001:2018 certificate remains valid, active, and applicable to the stated scope.

Records & Retention

This Attestation and all referenced evidence shall be managed as controlled records under [Organisation Name]'s documented information and records management requirements.

Record Type	Retention Period	Record Owner	Storage Location	Disposal Method
Current ISO 41001:2018 Attestation	While current plus [X] years	[Management System Owner]	[Document repository / GRC system]	Controlled deletion or archival in accordance with records policy
Superseded Attestations	[X] years from supersession	[Document Owner]	[Document repository / archive]	Controlled deletion after retention expiry
Official ISO 41001:2018 Certificate and Annexes	Certificate validity period plus [X] years	[Management System Owner]	[Document repository / certification records folder]	Controlled deletion or archival
Certification Audit Reports	Current certification cycle plus [X] years	[Management System Owner]	[Audit records repository]	Controlled deletion after retention expiry
Corrective Action and Closure Records	Current certification cycle plus [X] years	[Management System Owner]	[CAPA system / audit records repository]	Controlled deletion after retention expiry
Management Review and Internal Audit Records	[X] years	[Management System Owner]	[Management system repository]	Controlled deletion after retention expiry
Accreditation Verification Evidence	Duration of reliance plus [X] years	[Document Custodian]	[Document repository]	Controlled deletion after retention expiry

Records shall be retained in accordance with applicable contractual, legal, regulatory, accreditation, and management system requirements. Where requirements conflict, the longest applicable retention period shall apply.

Access to this Attestation and supporting evidence shall be limited to authorised personnel and approved external recipients. Public distribution of the ISO 41001:2018 certificate, certification claims, certification marks, or accreditation marks shall comply with the rules issued by [Certification Body Name] and [Accreditation Body Name].
