

Compliance Posture

Board scorecard · complyverse · 04 July 2026

THE FOUR AREAS AT A GLANCE

Each area scored out of 100. ■ On track (80+) ■ Progressing (60–79) ■ At risk (below 60). Audit-ready target is 85.

SCORECARD — THE NUMBERS BEHIND EACH AREA

Frameworks 63 PROGRESSING

Regulations brought in and turned into usable controls.

Controls 4 AT RISK

Turning each regulation's controls into evidenced, verified, in-scope obligations.

Evidence 60 AT RISK

The proof library — approved, current, and ready to stand up in an audit.

Control Library **37 AT RISK**

One master control set, built once and reused across every framework.

18% Reused across frameworks 426 of 2,332	32% Effort saved by consolidation 3,419 requirements → 2,332 controls	95% Knows what proof is needed 2,214 of 2,332	1% Proof actually collected 16 of 2,332

WHERE TO ACT

- 116

controls have **no evidence collected** yet — the biggest gap to audit-readiness.
- 113

controls are **not yet verified** — awaiting review sign-off.
- 1

framework is still in **draft**, not yet live in the library.
- 1

evidence item is **expired or stale** and needs refreshing.

Reading the score. Each area blends its KPIs into a 0–100 score; the four areas blend equally into the headline. 85 is the audit-ready bar. A low score is not a data problem — it reflects real work still to do, chiefly collecting and signing off the evidence that proves controls are operating.
